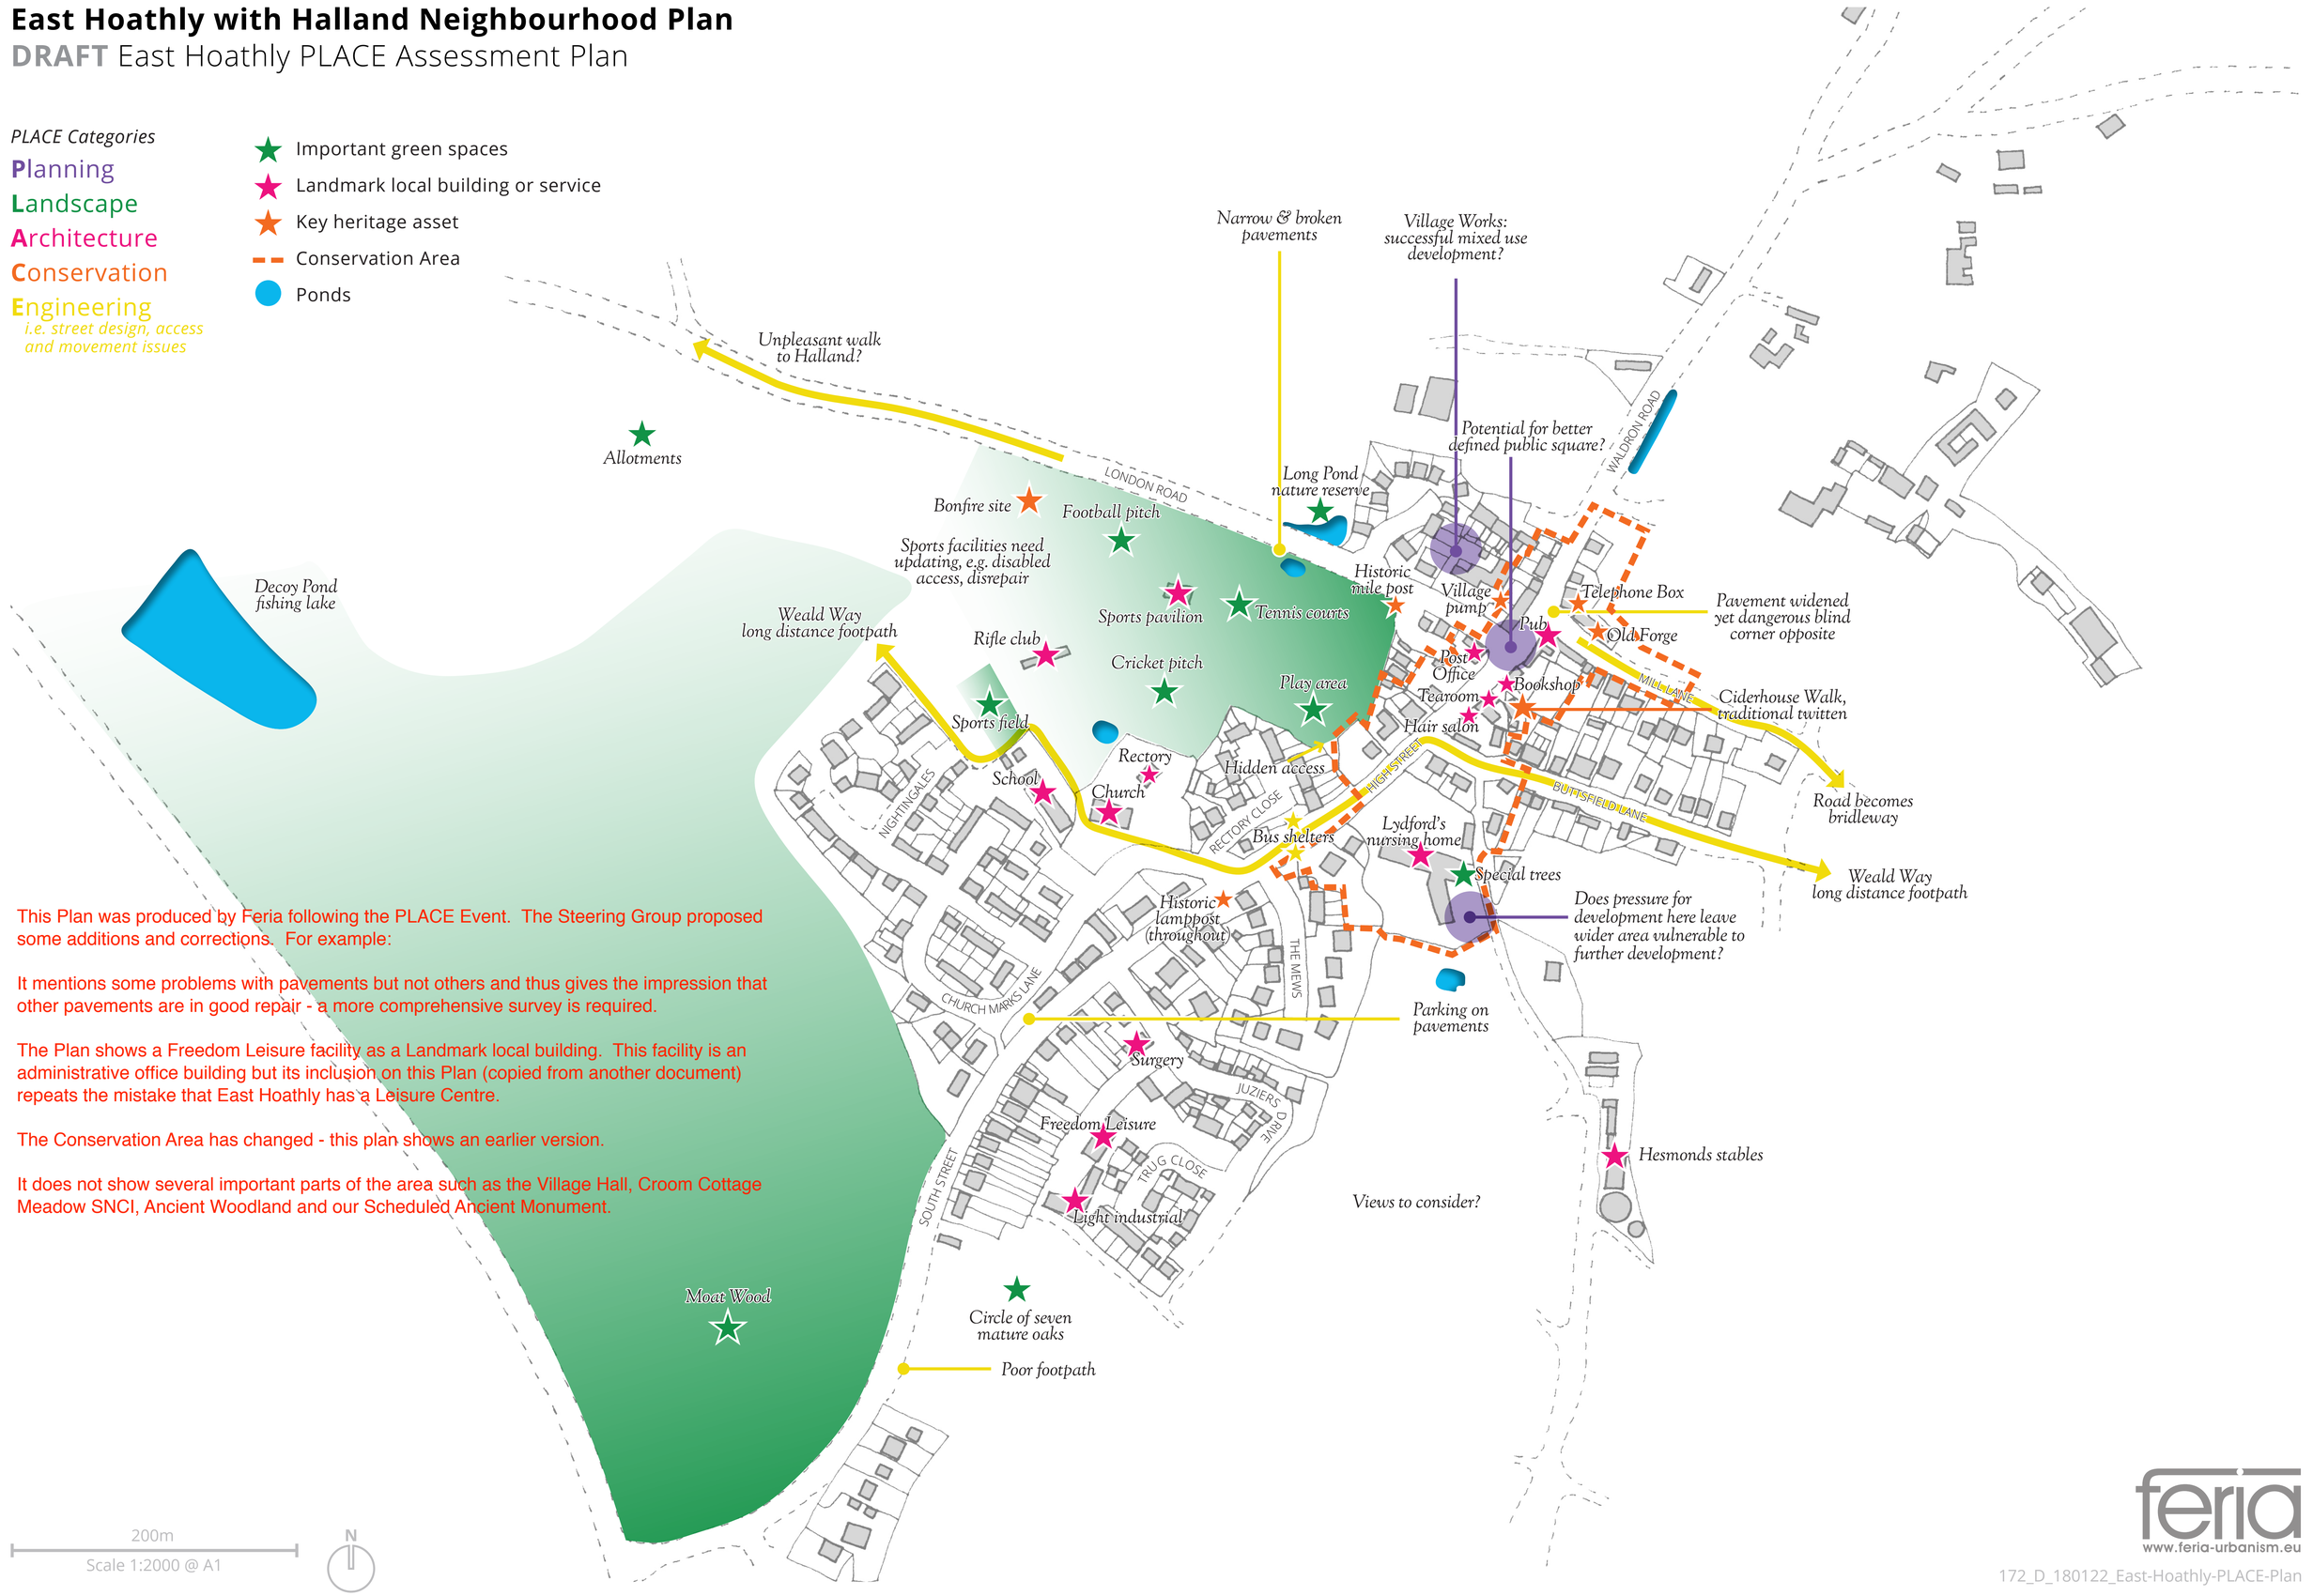
East Hoathly with Halland Neighbourhood Plan

DRAFT East Hoathly PLACE Assessment Plan

PLACE Categories

Planning
Landscape
Architecture
Conservation
Engineering
i.e. street design, access and movement issues

- Important green spaces
- Landmark local building or service
- Key heritage asset
- Conservation Area
- Ponds



This Plan was produced by Feria following the PLACE Event. The Steering Group proposed some additions and corrections. For example:

It mentions some problems with pavements but not others and thus gives the impression that other pavements are in good repair - a more comprehensive survey is required.

The Plan shows a Freedom Leisure facility as a Landmark local building. This facility is an administrative office building but its inclusion on this Plan (copied from another document) repeats the mistake that East Hoathly has a Leisure Centre.

The Conservation Area has changed - this plan shows an earlier version.

It does not show several important parts of the area such as the Village Hall, Croom Cottage Meadow SNCI, Ancient Woodland and our Scheduled Ancient Monument.

200m
Scale 1:2000 @ A1
